Materials Control Procedures for Revising/ Rectifying Average Prices.

This document is meant to give procedures for changing the average prices in the system as this may affect Transfer prices, Usage prices, Recipe Costs and Back Office Interface amounts.

Click on the Manage Store icon 

, under the Store short-cut bar.

The following window appears:

On this window, insert the following:

Cost Centre/ Store : Enter the Cost Centre/ Store of the items where you would like to change average prices.

Over Group :
Major Group :
Item Group :
Storage Location :
Article :

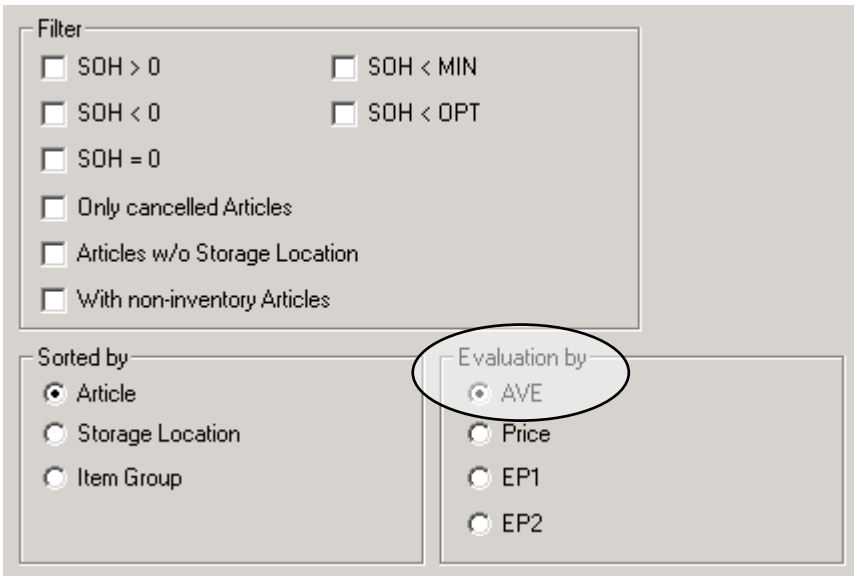

These are optional fields to filter the group of articles e.g. Beers, Sodas, Beef Products etc.

To apply a filter, Press Enter and select from the list.

On the following section, select **Units** :

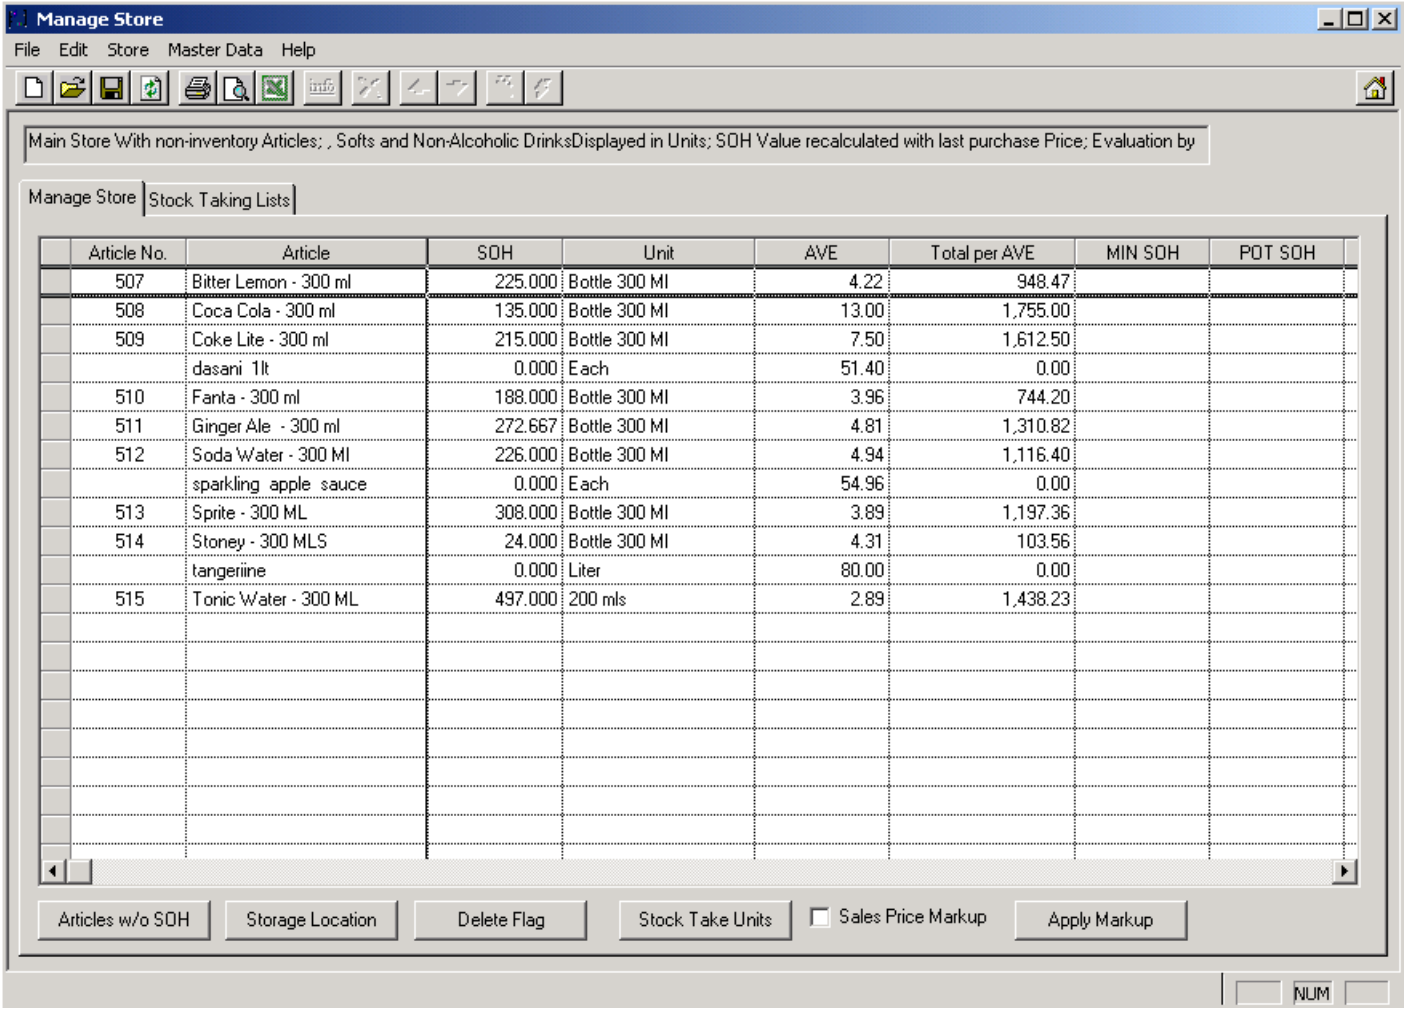

Apply any further filters or sorting if you would like on the following section :

Please take note to select the **Evaluation by AVE** (Average)

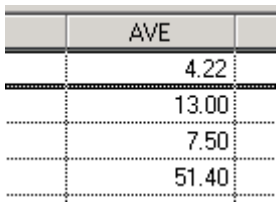

Click **OK**

The following window appears:

On this window change the average prices in respect to the unit displayed.

Select an item and click the cursor on the AVE column to change the average price:

Please note that if you selected '**Base Unit**' on the following section :

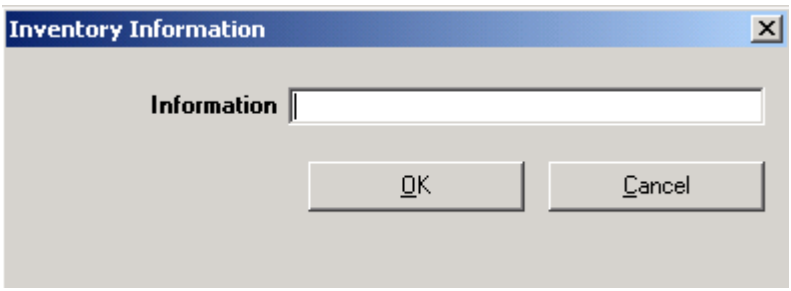

Then you have to convert the average price to the equivalent of the Base Unit:

e.g. *Units* > *Coca Cola Bottle 300Ml = 15.00*

Base Unit > *Coca Cola Litre = 49.95 (15.00 X 3.33)*

When all the articles' average prices have been rectified/ revised click on the Save icon at the top 

The following window appears:

Type any Information for Changing the Average Prices e.g. *'Average Price Verification'*

PLEASE REPEAT THE ABOVE PROCEDURE FOR ALL THE STORES.
