Materials Control Procedures for Receiving Goods.

Non – Purchase Order Receiving.

To receive goods directly into the system without a Purchase Order generated from the system.

→ Click on the Receiving Icon 

→ The following screen appears :

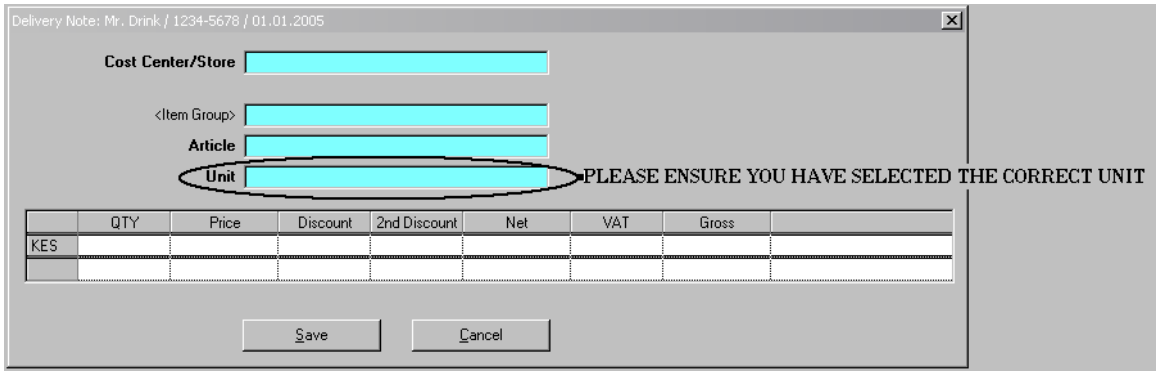

On this screen please ensure the correct entry of the following:

The respective supplier
Type in the Delivery Note No. as per the supplier's document
Insert the correct date

→ Click on the '**New Position**' button

The following screen appears:

On this screen enter the correct store that is receiving the goods

Select the article that is being received from the supplier
(please note one article at a time is received)
When an article is selected, it's base unit is automatically offered as the receiving unit by the system. THIS UNIT MAY BE INCORRECT !.

PLEASE ENSURE THAT YOU CLICK IN THE UNIT FIELD, (IGNORE THE UNIT THAT IS OFFERED BY THE SYSTEM) AND SELECT THE RESPECTIVE UNIT.

In the white section of the window, enter the details of the goods being received, such as the quantity, price, discounts and Gross amounts.
(Please note VAT is removed from the next step)

→ Repeat the above procedure for all the items that are being received.

→ Once finished, click on '**Save**' and then '**Cancel**'.

→ On the next window, verify and make any changes, if need be, such as adding or removing VAT.

→ Click On '**Book**' and Print a Goods Received Note (GRN)
