Materials Control Procedures for Fixing Prices.

This is for fixing prices in the system.

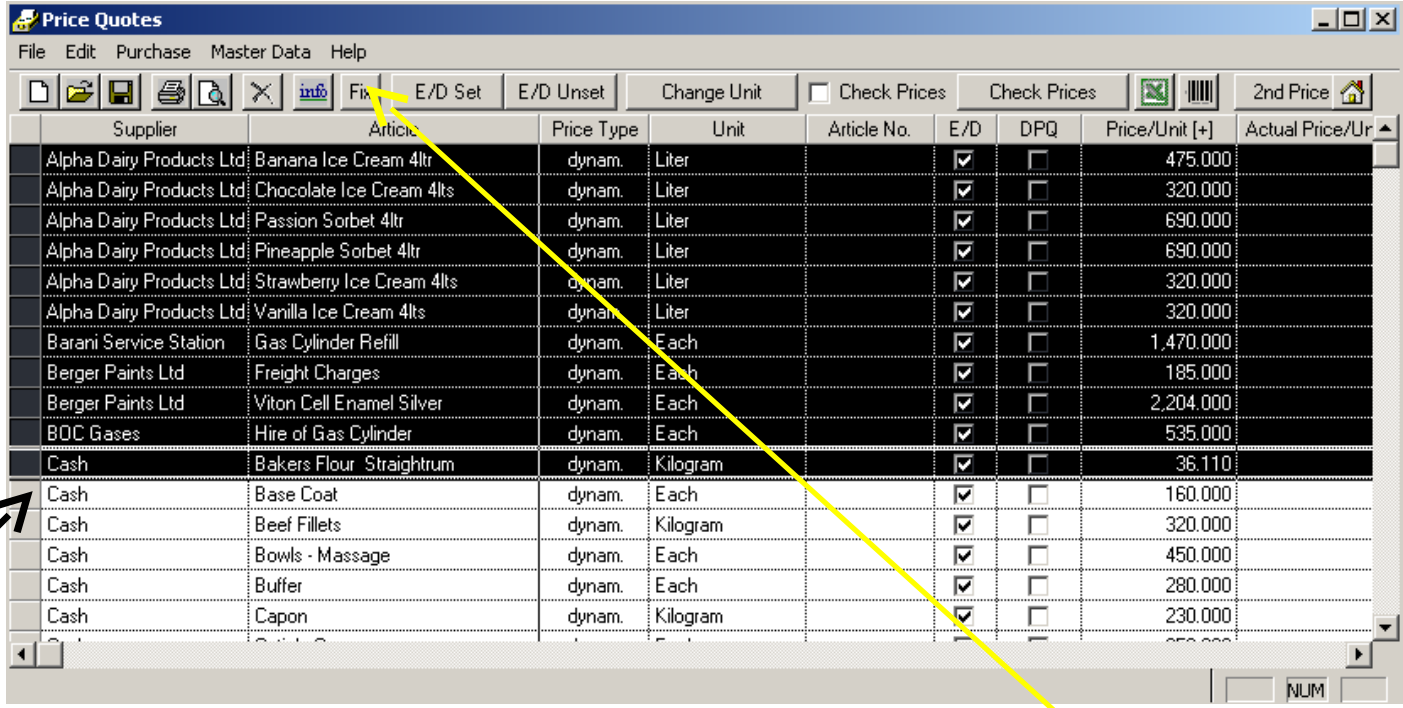

Go to **Price Quotes:**

The following window is displayed:

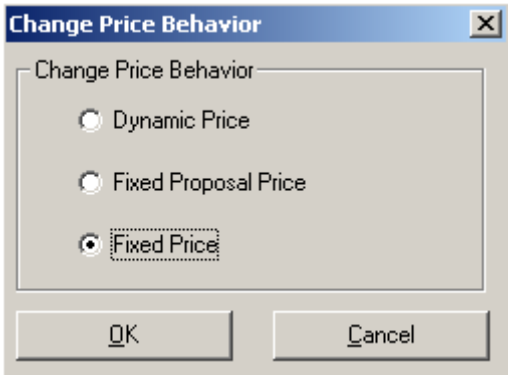

On this window Click "**OK**"

This will display all the price quotes that have been created in the system, as follows:

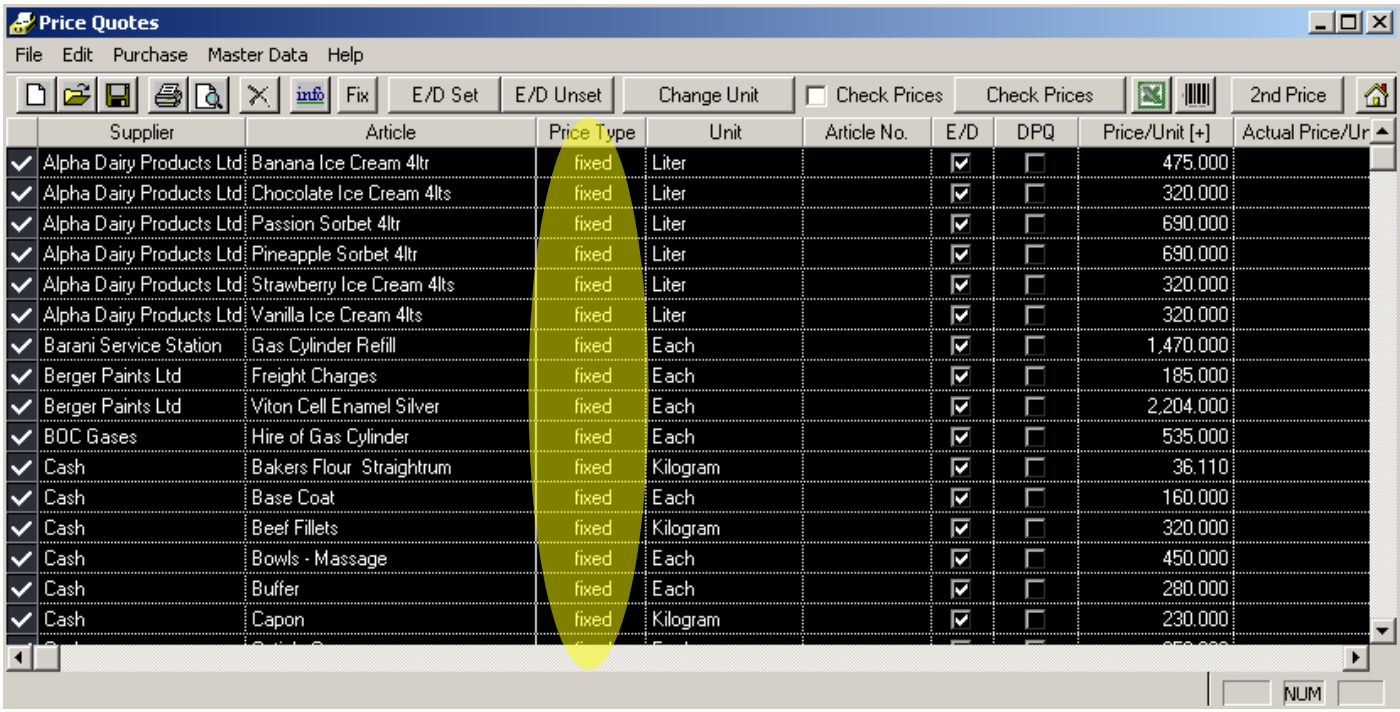

Highlight all the price quotes as in the screen above and then click on the button "**Fix**"

After clicking on "**Fix**", the following window will appear:

Select "**Fixed Price**" and then click **OK**

Note on the following window the price quote type has should change to "**fixed**", as follows:

After this click on the save icon 

This will fix all the prices in the system.
These prices will be available for selection whenever an LPO will be generated.
Price changes can only be done in this function.
