Materials Control Procedures for Gratis Receipts.

Use the following document to receive free goods, without affecting average prices of inventory.

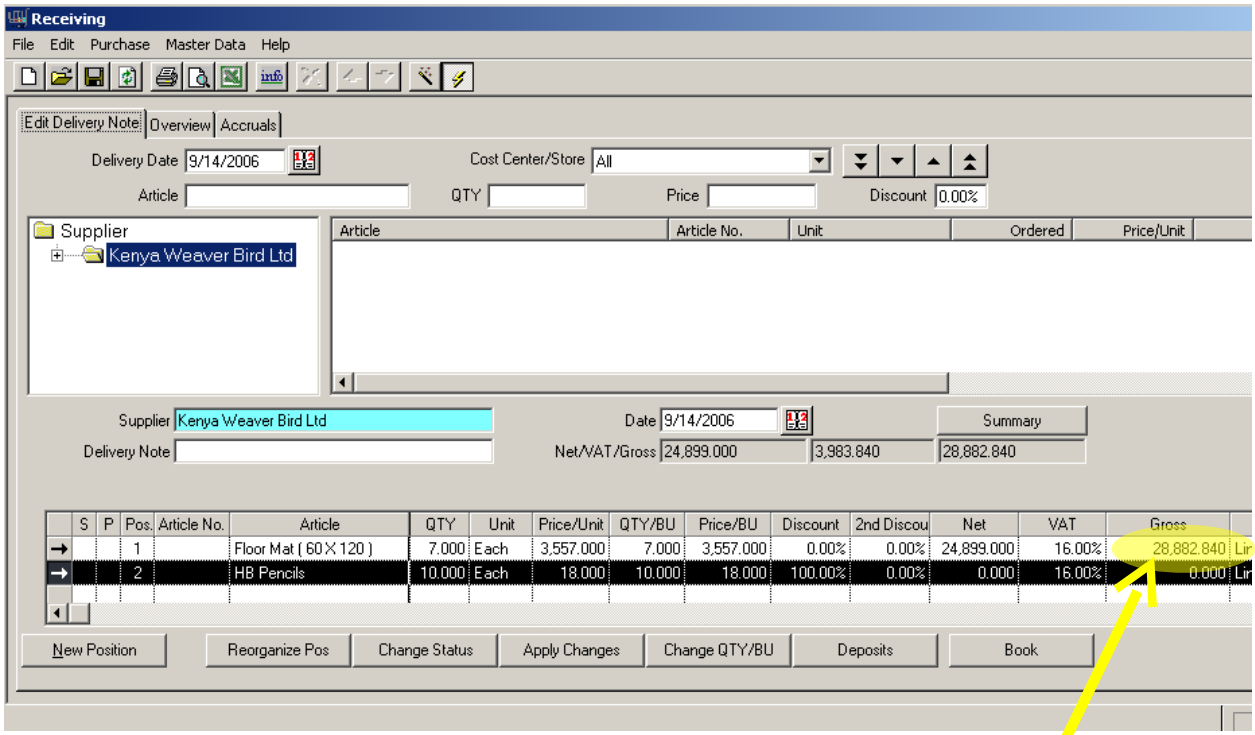

In the Receiving Module

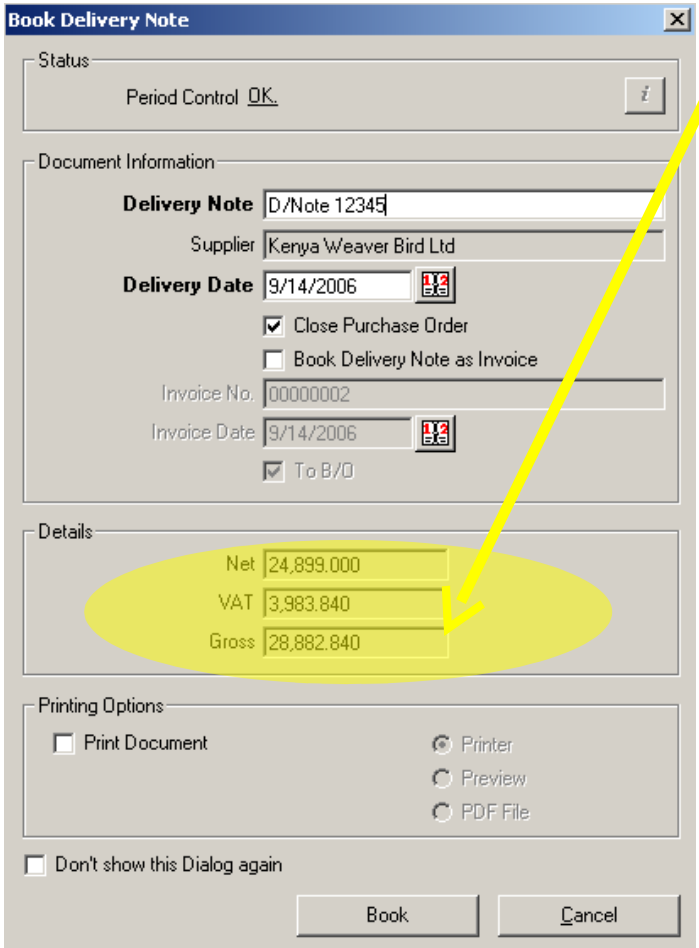

Click on "**New Position**" and the following window appears:

On this window insert the item that is being offered and in the Discount column insert a discount of 100% . Then click on "Save", and the new item added will appear as follows:

Then click on "**Book**" and the following window appears:

On this Window notice that the amount to be paid for the delivery doesn't include the free items offered by the supplier !.

After this, continue with invoice control and back-office exports as usual.
