Materials Control Procedures for Invoicing & Back Office Interface.

The following document is meant to give procedures for invoicing deliveries that have been made to the receiving department, *whenever a supplier gives an invoice for one or more deliveries*.

This document also contains procedures for passing this information to Sun Systems

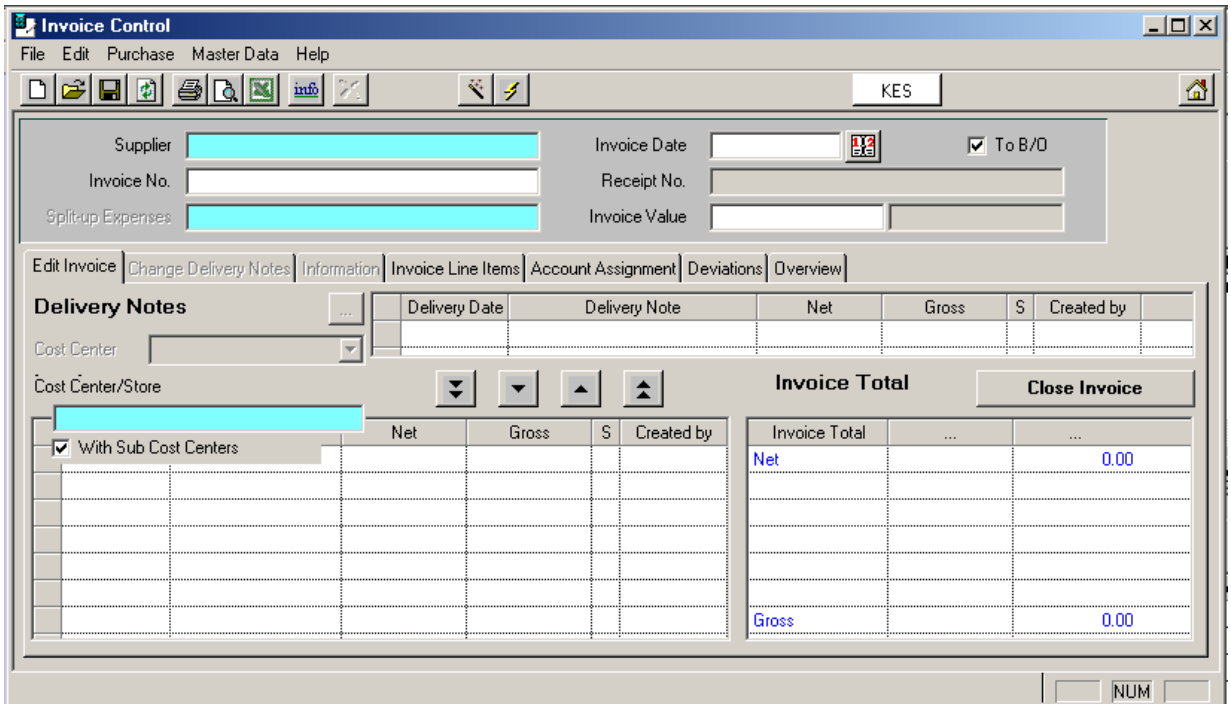

INVOICING DELIVERY NOTES

Please Note : This is used only when the receiving clerk has **Not** booked a delivery note as an invoice.

Whenever an invoice is presented by suppliers for deliveries of goods as per one or many delivery notes, they must be entered in the system.

Click on Invoice control Icon under the Purchasing short-cut bar. 

The following screen will be displayed.

Supplier – Enter the supplier name as per the invoice

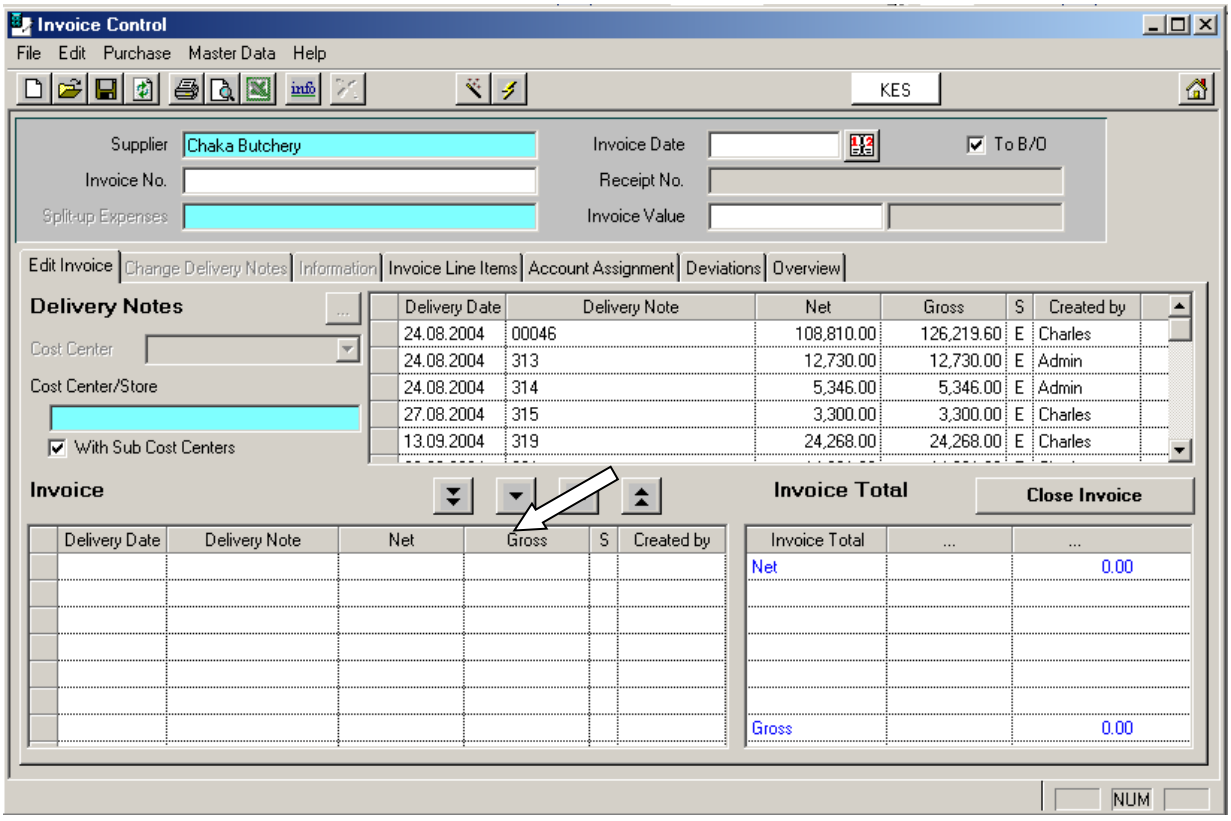

All the Delivery notes of the same supplier pending invoices to be received will be displayed. Select only the delivery notes that are specified on the supplier's invoice.

Invoice No. – Enter the supplier invoice Number as per the supplier's invoice.

Invoice Date.- Enter the invoice's date.

Invoice Value.- Enter the Gross total of the Supplier's Invoice, this information is copied directly from the supplier's invoice

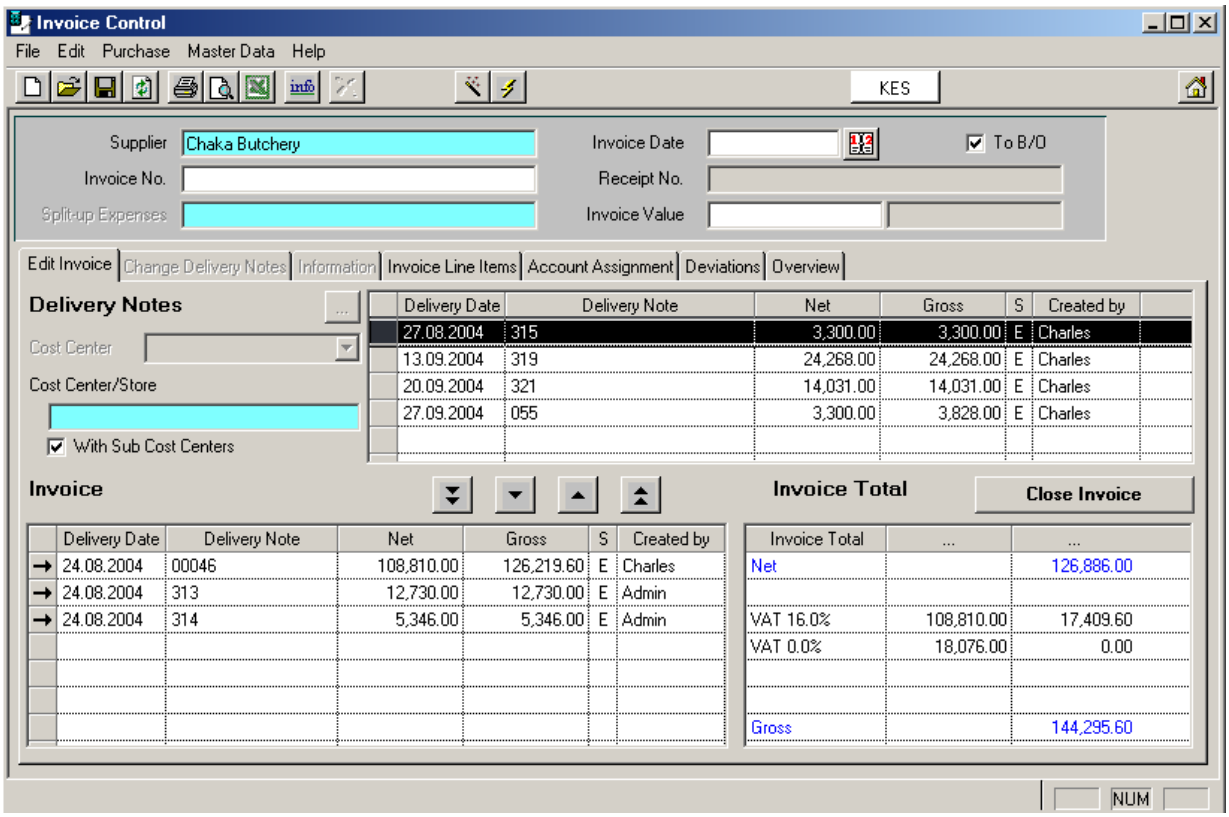

An example of the screen will be as follows:

Select each delivery note at a time from the right mid-section of the screen and click on the down arrow (*shown by the white* arrow).

This moves the delivery note(s) to the lower section of the screen.

This is illustrated below:

Please ensure the following:

The Invoice totals displayed (*on the right-lower section of the window)* i.e. the VAT Total, Net Total and the Gross Total tallies with the Suppliers Invoice.

If they tally then continue by Clicking on '**Close Invoice**' 

.

If the Invoice Totals displayed do not tally with the supplier's invoice then verify the delivery notes that have been selected or their details during receiving.

NB: You can do this by double-clicking each delivery note at a time to view it's details.

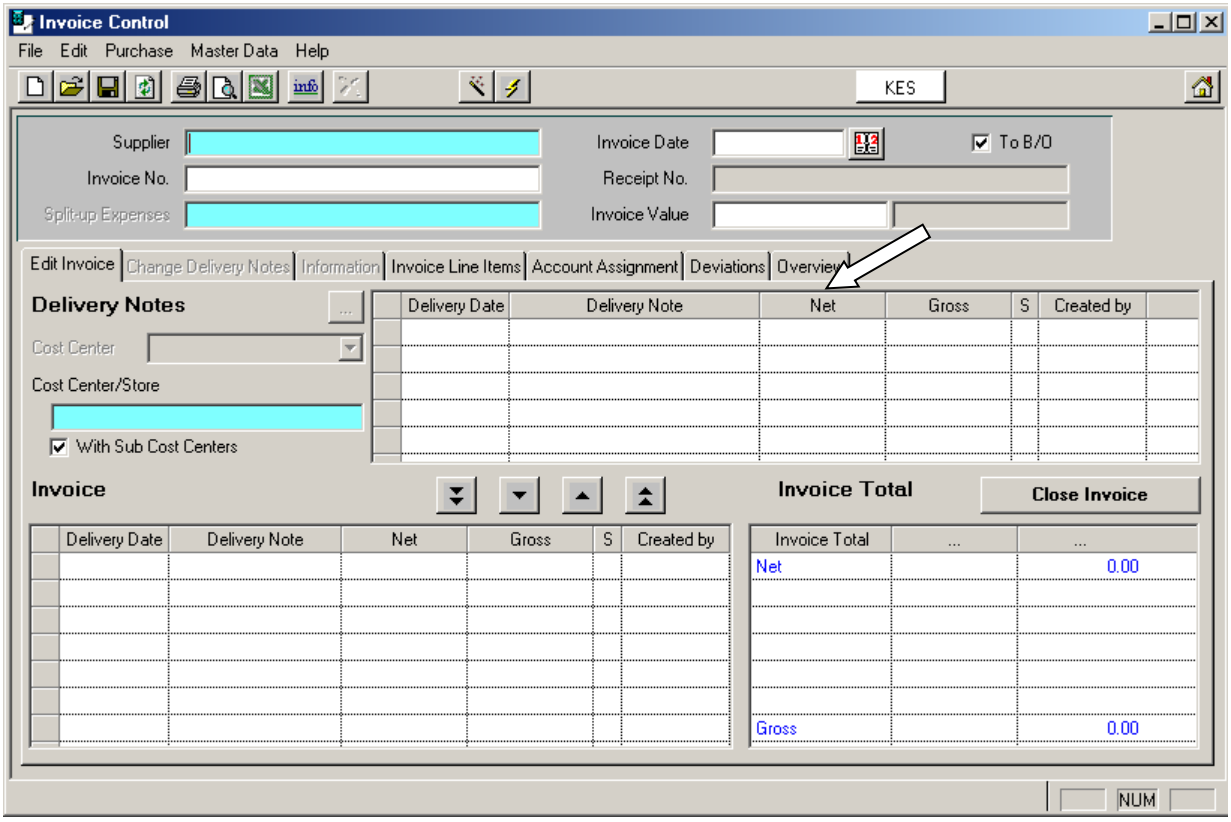

BOOKING INVOICES TO BACK OFFICE (B/O) INTERFACE.

This section provides procedures for passing invoices to Sun Systems.

To transfer invoices to B/O interface click on the '**Invoice Control**' under the Purchasing 

short-cut bar .

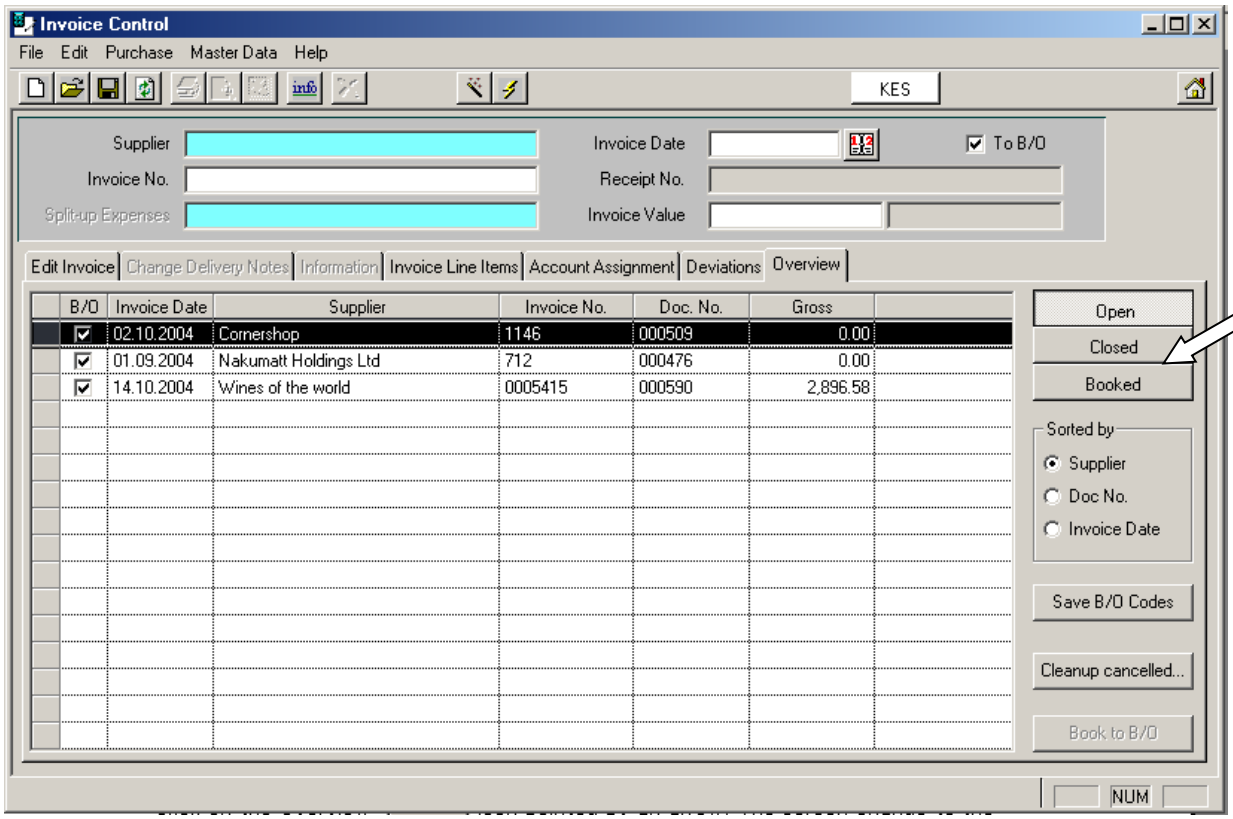

The Following screen will appear.

Click on the '**Overview**' Tab 

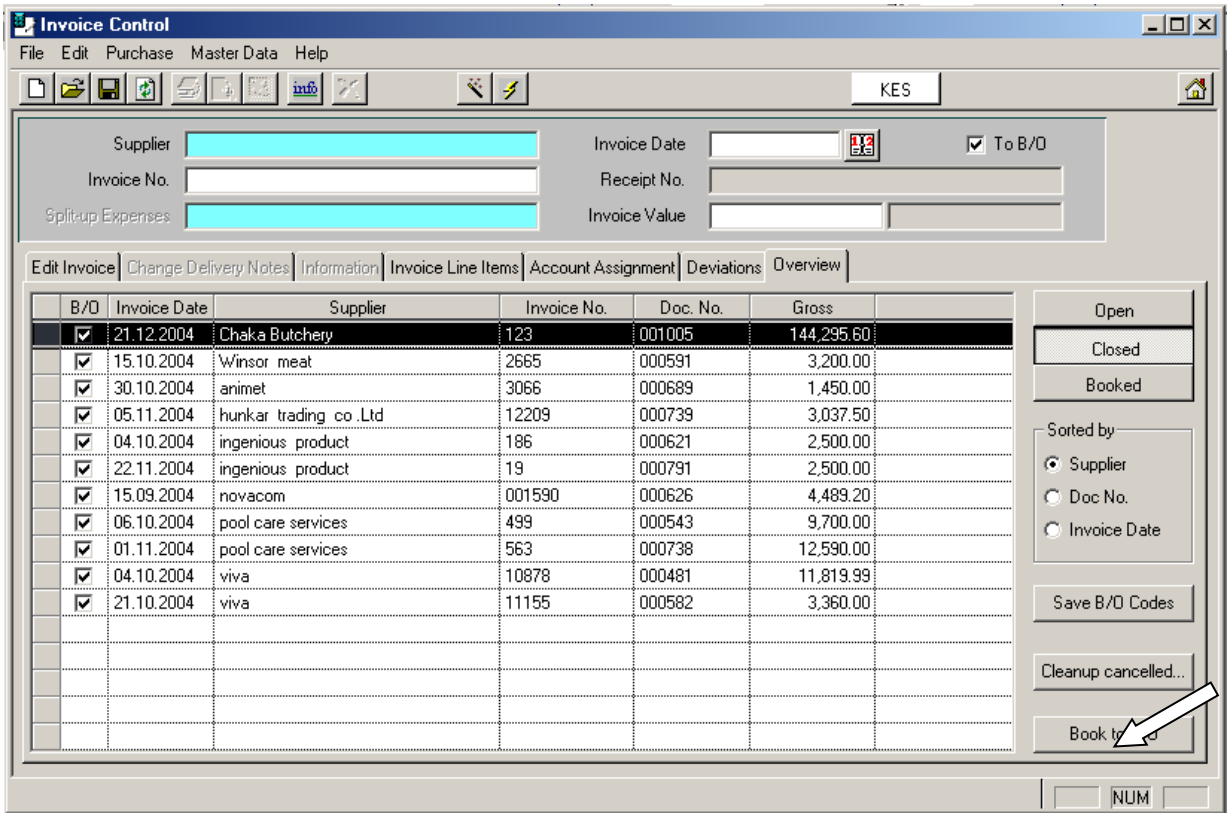

(*Shown by the white arrow*).

The following screen appears:

Click on the Closed  Icon.

These are the invoices that are already invoiced and are ready to be booked to the BackOffice Interface.

Ensure the '**To B/O**' tick is on 

Highlght the Invoice(s) you want to Book to B/O and click on the Book to B/O

Icon (*shown by the white* arrow)

The highlighted Invoice(s) are transferred to the B/O interface.

Please Note the following:

If the 'To B/O' box is NOT ticked, then the highlighted invoices will only be moved to Booked Folder (*This is next button below Closed*).

If the 'To B/O' box is ticked, then the highlighted invoices will be moved to both the B/O interface and Booked folder also.

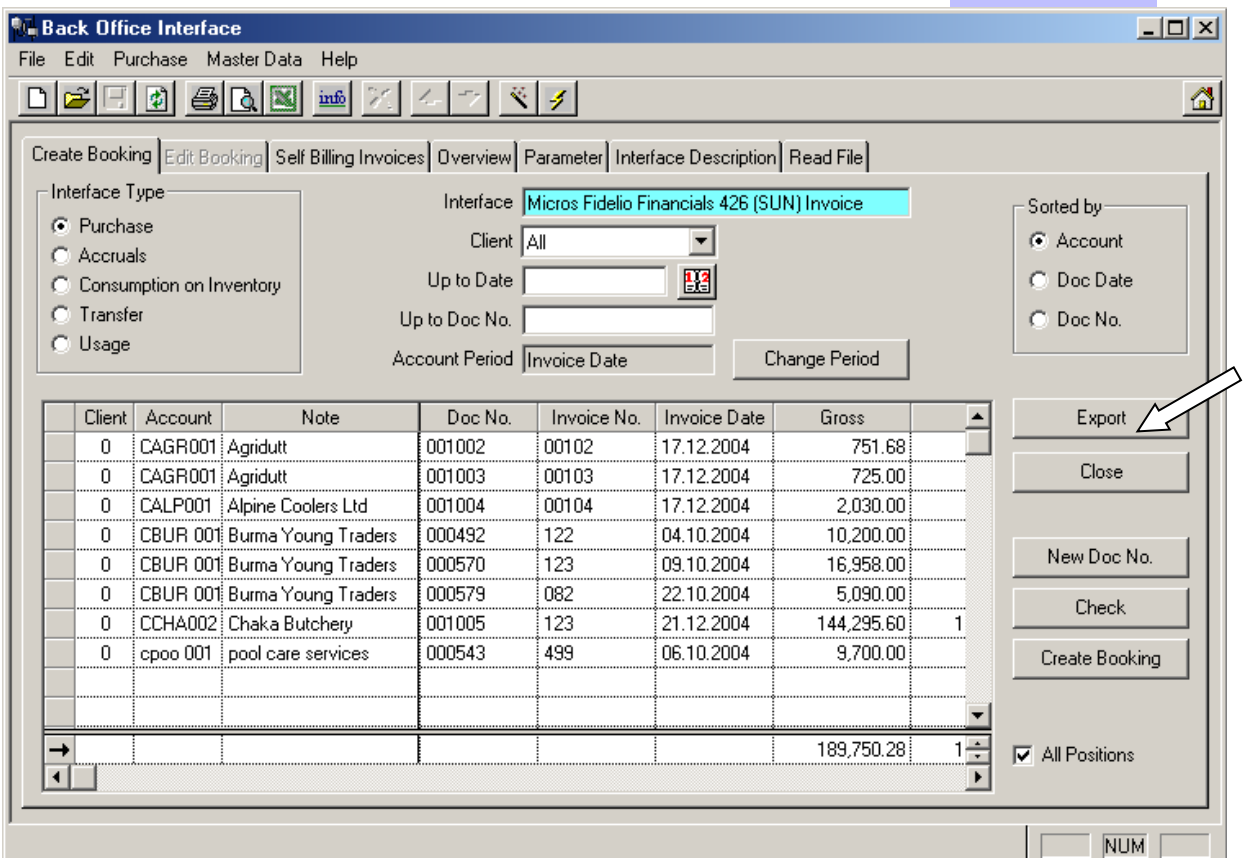

Invoices in the Booked Folder CANNOT be transferred to B/O interface and therefore will NOT be received in the Back office accounting system. This will have to be reposted manually in Sun Accounting System.

The next stage is to access the BackOffice Interface, the procedures are:

Click on the B/O Interface icon under the purchasing short-cut bar.

The following screen appears:

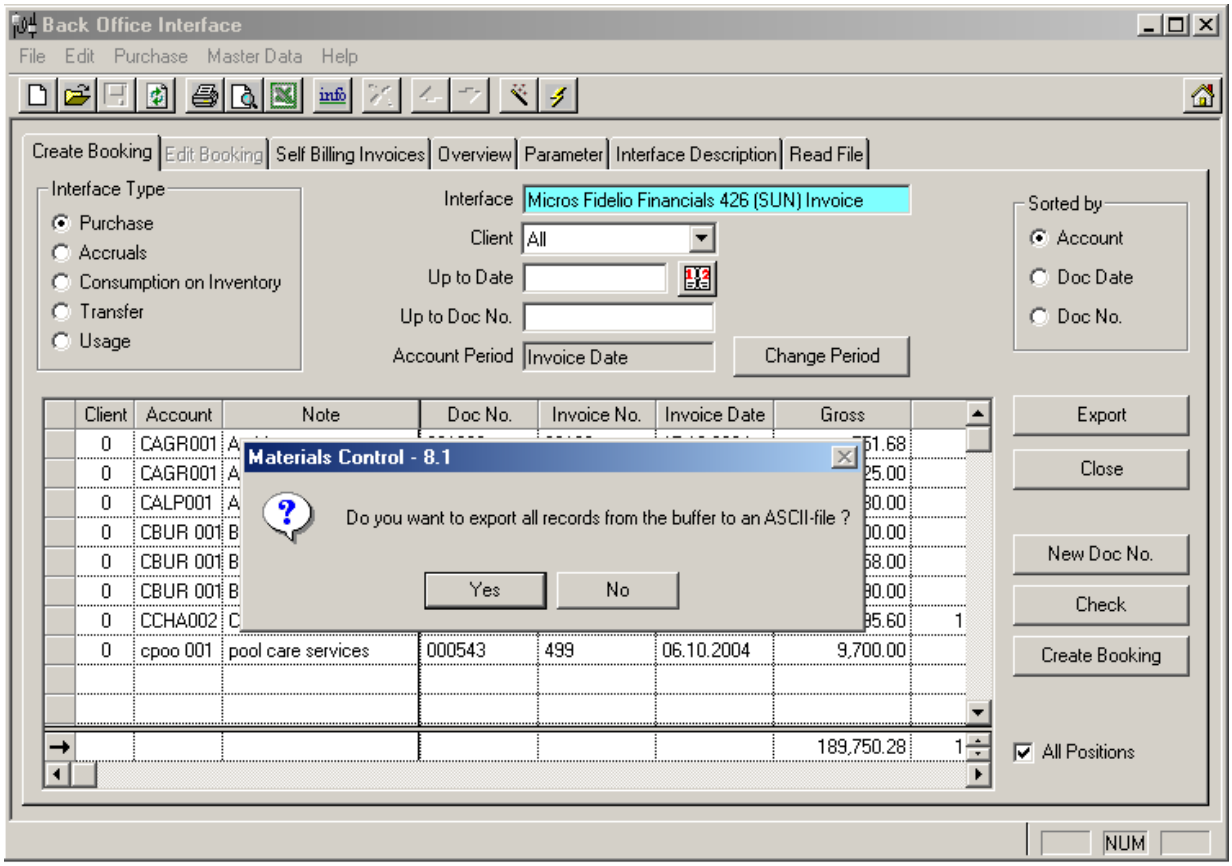

On this window all the invoices transferred from the previous stage will be displayed here.

To transfer them to Back office accounting System click on the Export

icon.

The following screen will appear

Click on Yes Icon and the Invoices will be exported to Your Back office system (Sun System)

This B/O Interface is also used to transfer Accruals, Transfers and Usages to your Back office System. It's the Main link Between Materials Control and Your Back office system (Sun System).
