Materials Control Procedures for Return to Supplier.

Use this document to return goods back to the supplier and also for passing a credit note.

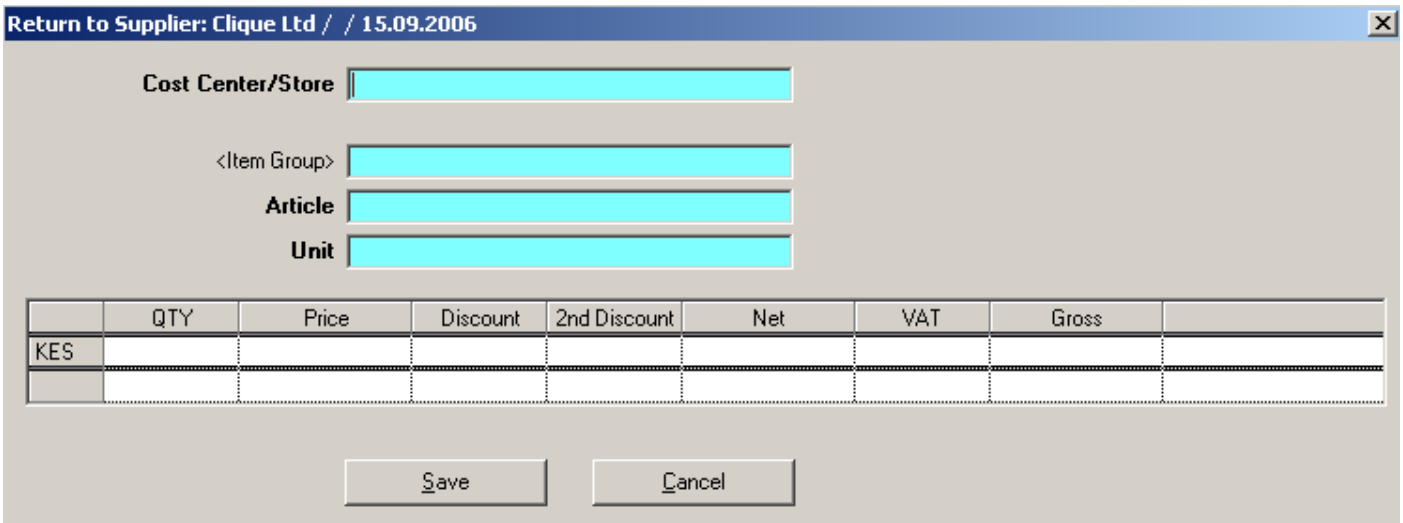

Go to the Return to Supplier screen:

Please note that the user rights to receive goods without an order have to be given to use this.

On the above window insert the Supplier, the date of return and then click on New Position.

The following window appears:

On the window above insert :

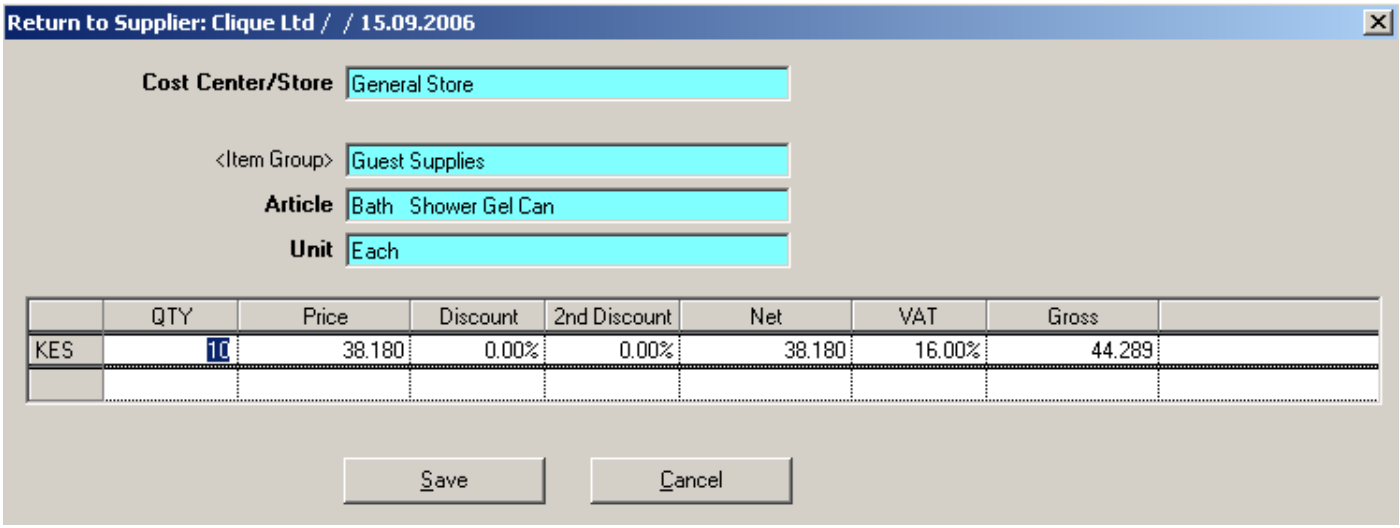

Cost Centre / Store : The store where the goods have been issued from (This is where the Stock on Hand will reduce)

Item Group : (Optinal Field) The item group to which the articles are grouped under

Article : The articles being returned back to the supplier.

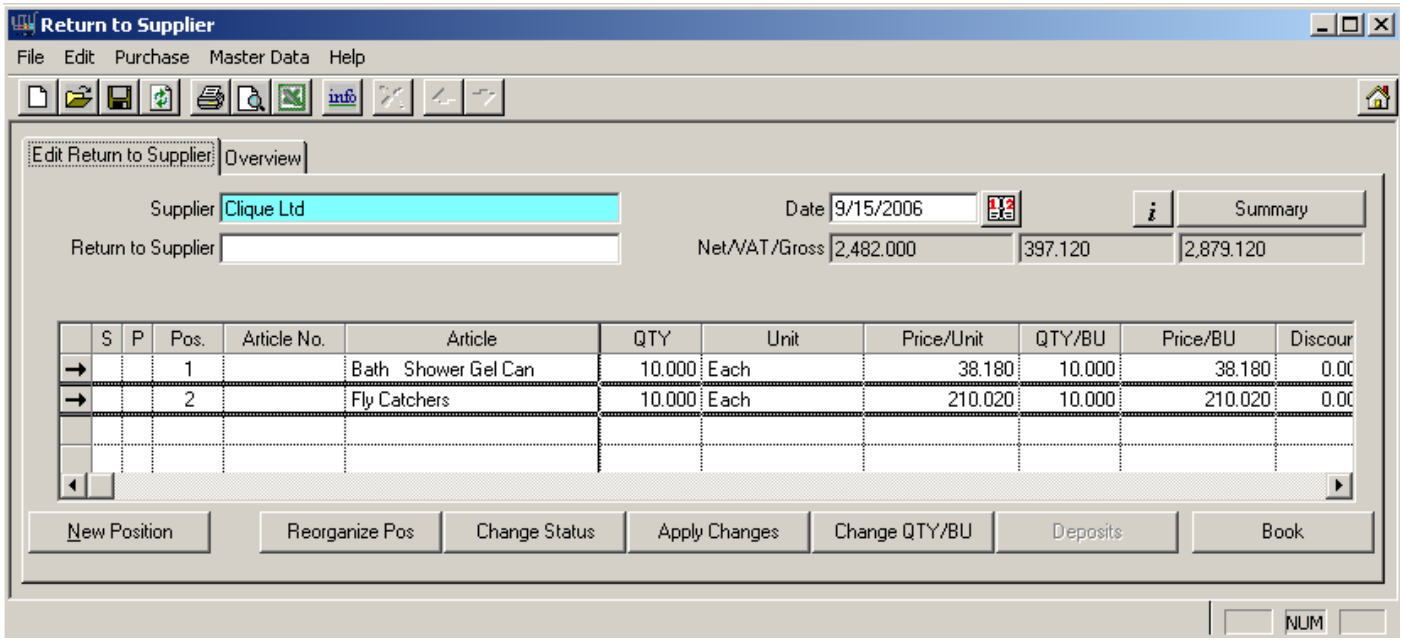

Unit : The unit of measure (packing) of the articles

Insert the quantity returned in the **QTY** column and then click on **Save**.

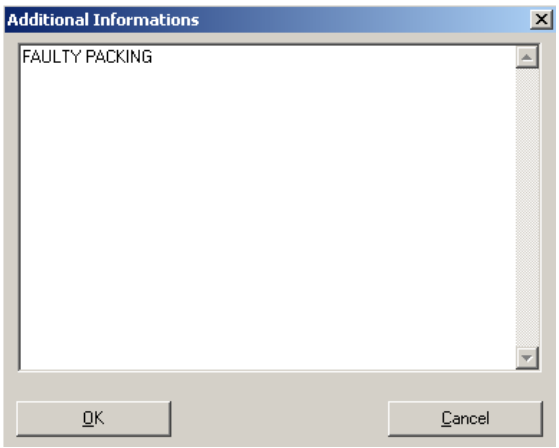

When finished click on **Cancel.**

The items will appear on the screen as follows:

Then click on **Book**

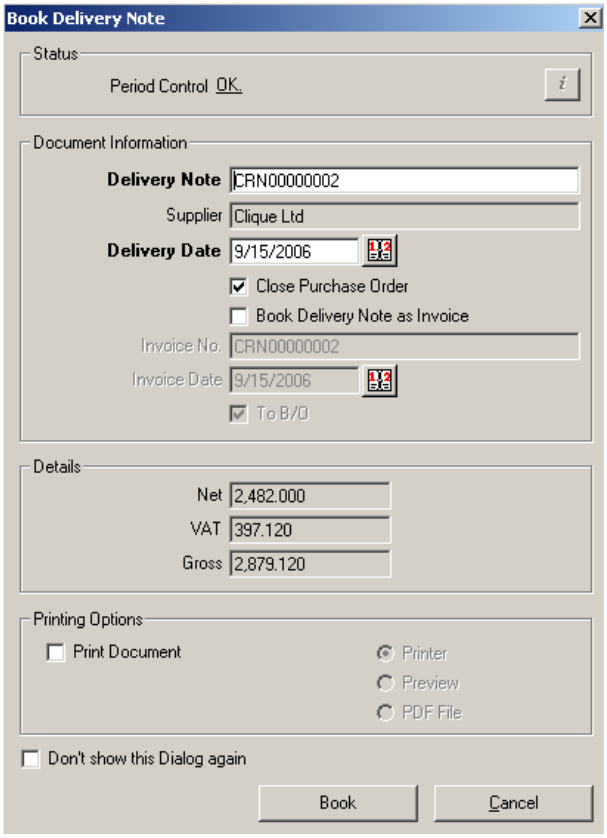

The following window appears:

Insert the reason for returning the goods back to the supplier.

Then click **OK.**

The following dialog window appears for verification before printing the RTS (Return to Supplier) document.

Click on **Book.**

After returning goods back to the supplier, a credit note has to be processed to credit the stock in back-office and debit the supplier.

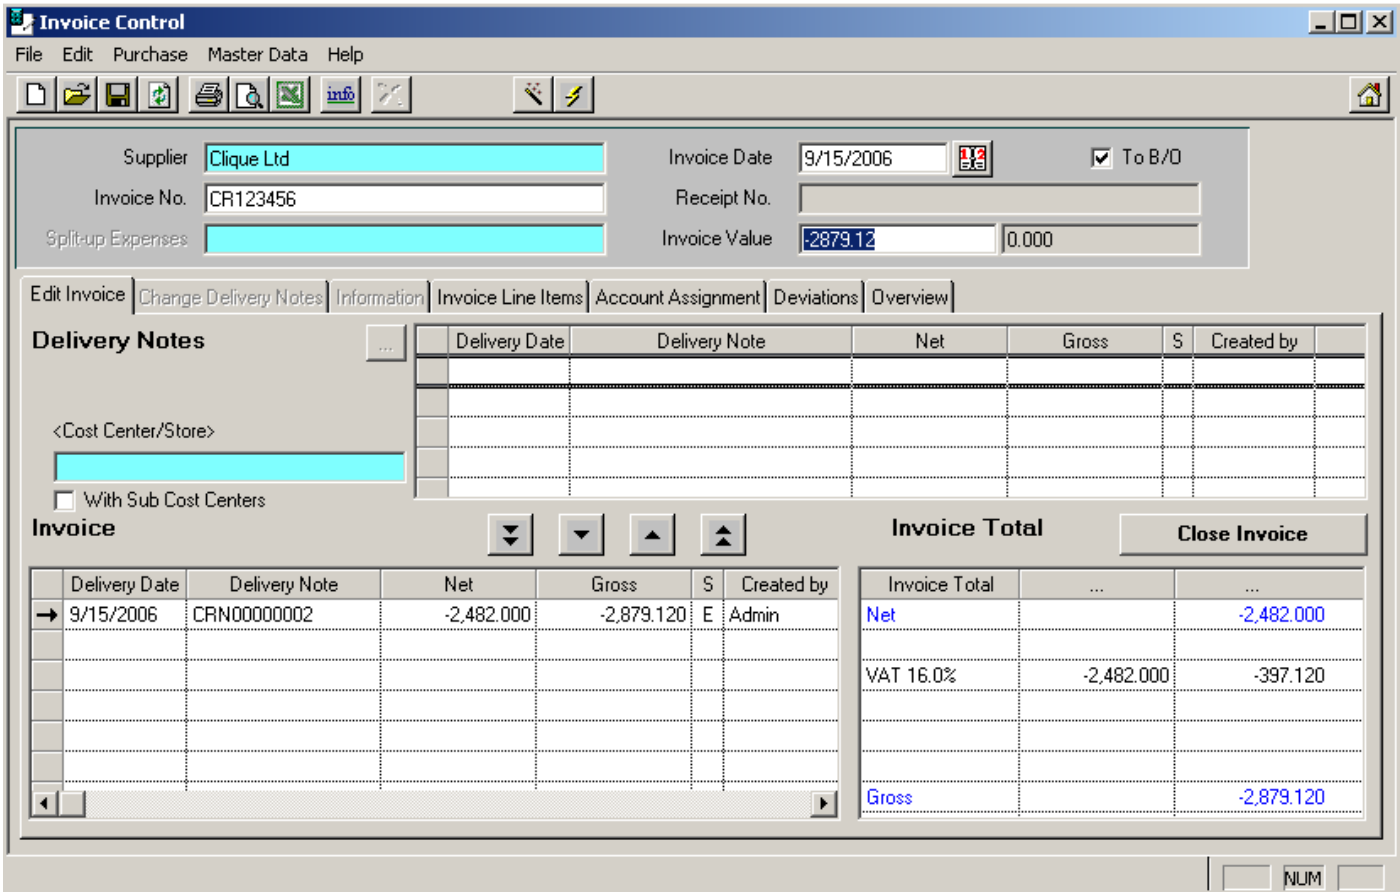

Please refer to the procedures below to post a credit note.

Materials Control

Posting a Credit Note

The following are the procedures to process a credit note after the return to supplier function has been used in the system.

Go to the Invoice Control screen:

Insert the details as follows:

Supplier : The supplier whom the goods were returned to

Invoice No. : The supplier's credit note number

Invoice Date : The credit note date

Invoice Value : The credit value (ENTERED AS A NEGATIVE AMOUNT)

Select the RTS document from the mid-section of the screen to the bottom section by using the down arrow buttons.

Then click on **Close Invoice**.

After posting the credit note as above then it can be exported to back-office along with other invoices as normal.
