Materials Control Procedures for Placing a Purchase Request.

The following document is meant to give procedures to a purchasing officer to resolve a purchase request.

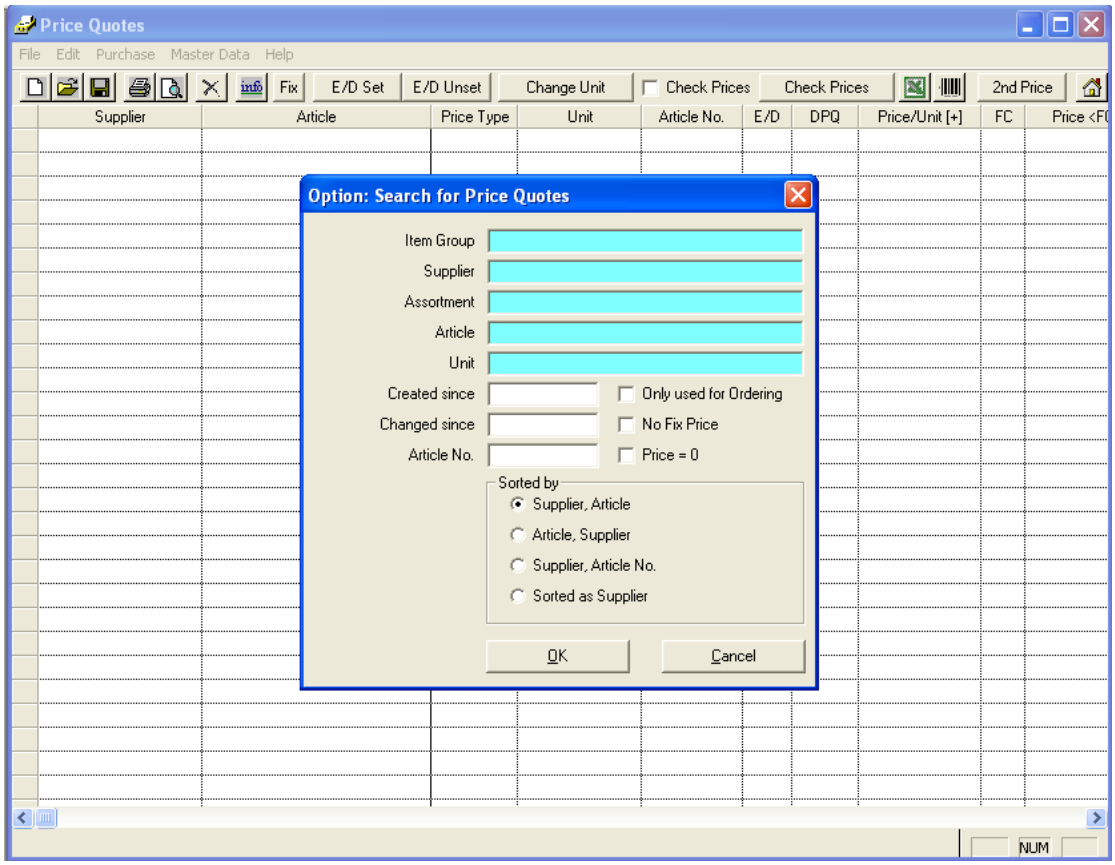

Please note that there is only one purchasing officer.

This document will include procedure for price quotes, assigning a supplier to a purchase request and then sending it to the purchasing manager.

Price Quotes.

Click on the '**Price Quotes**' icon under the Purchases short-cut bar. 

The following window appears:

To insert a Price Quote for the first time for an item

Click on '**Cancel**' to close the "search for price quotes window"

Click the New File Icon at the top

The following window will open:

Here insert the Price Quote,

Article : Select the item for which you want insert the price quote
Please note that this item must be there in the database first

Supplier : Select the supplier whose price quote you are referring to
Once again, this supplier must be there in the database

Unit : Select the specific unit for which the price quote refers

Article No. : Optional field, insert the article number

Price/Unit : Enter the nett price of the item, in respect to the unit you selected previously

Barcode : Please ignore this field.

Click '**OK**'
Please note that if there is already a price quote for this item then an error message "*This Purchasing Unit Already Exists*" is displayed.
Click '**Ok**' to this message to close it.
Carry on with the price quote for the Next item.

Follow the above procedures for all New price quotes.

When finished click on '**Cancel**'

The same window as the previous one is seen again, this time with the price quotes you have entered, please verify this and then click on 'Save' at the top

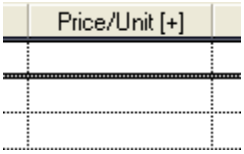

To change/ revise a Price Quote for an item

*……continued from the point of clicking on the '**Price Quotes**' icon* 

Enter the search criteria for the price quote you want to change/ amend in the "search for price quotes window"

Or

Simply click '**OK**' on the "search for price quotes window"

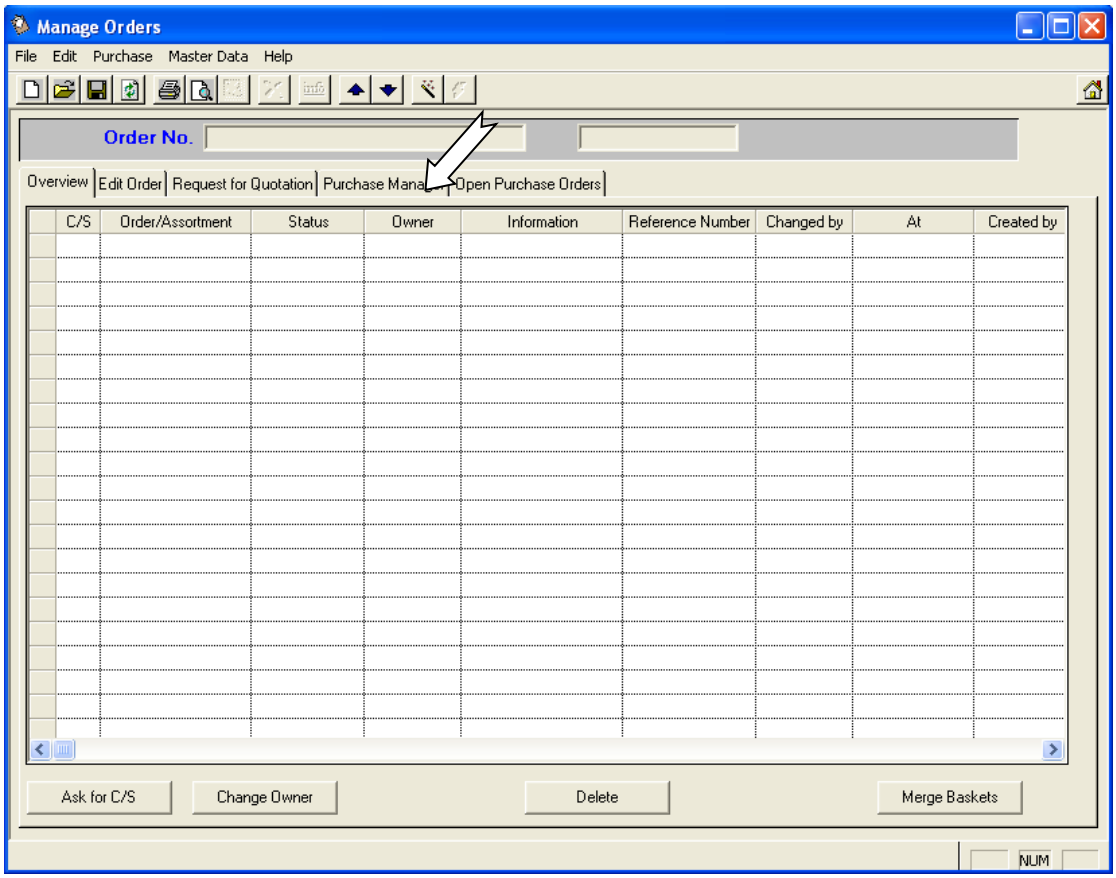

All the price quotes and their details will be displayed on the screen. Search for the price quote you want to change/ amend and then make the changes in the '**Price/Unit [+]' column**' 

When finished click on 'Save' at the top. 

To assign suppliers to a purchase request.

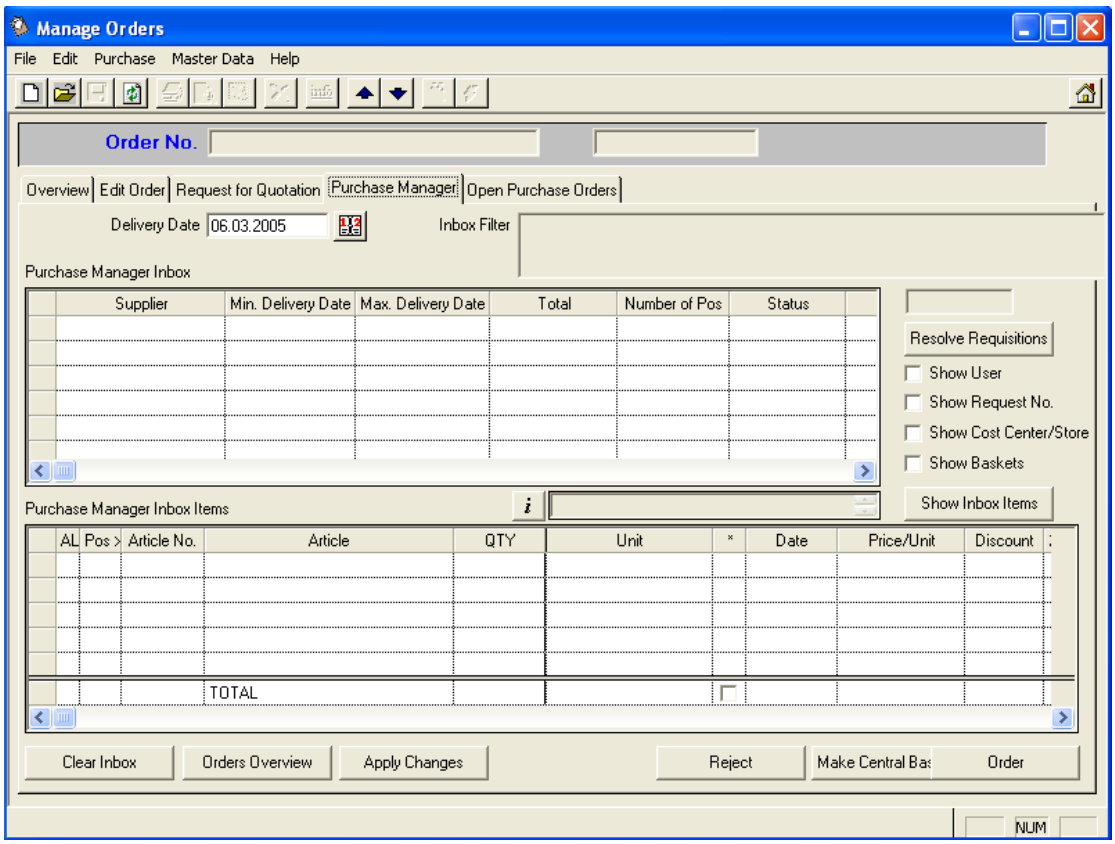

Click on the '**Purchase Orders**' icon under the Purchases short-cut bar 

The following window appears with some information.:
The purchase requests can be seen displayed here.

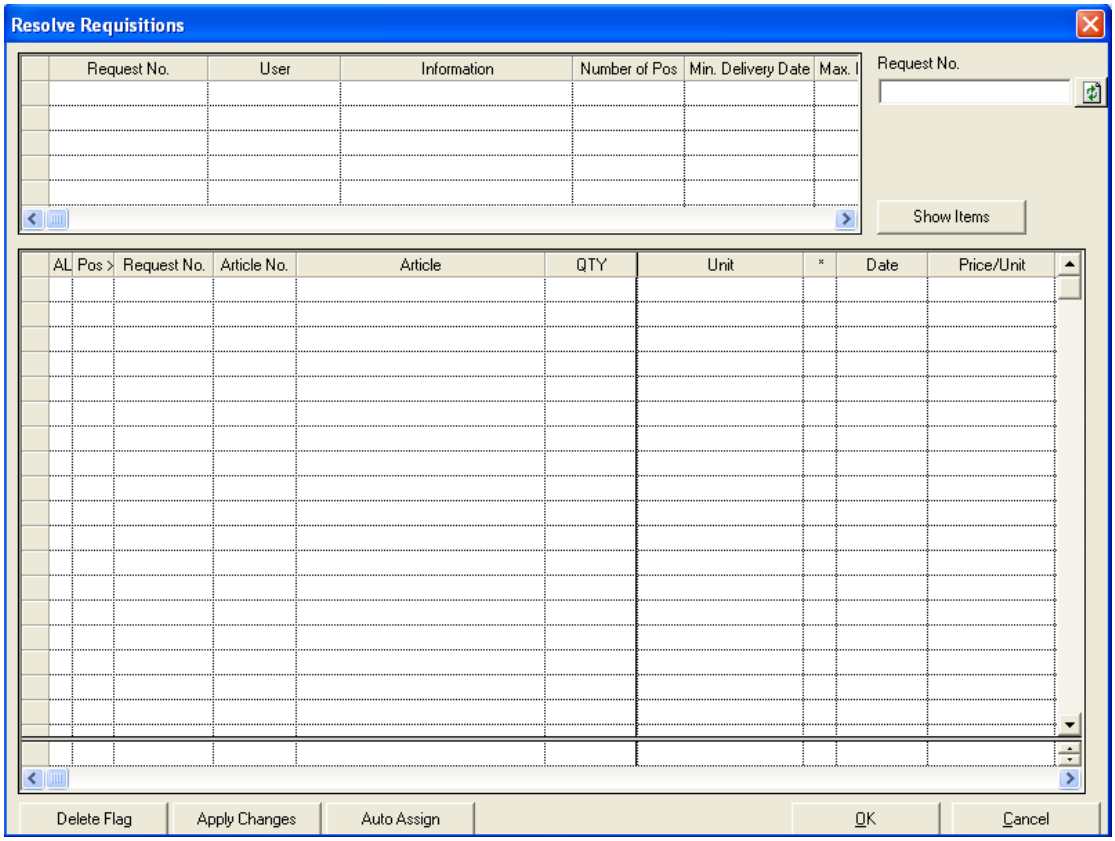

Click on the '**Purchase Manager** ' Tab (shown by the white arrow).

The following window appears:

Click on '**Resolve Requisitions**'

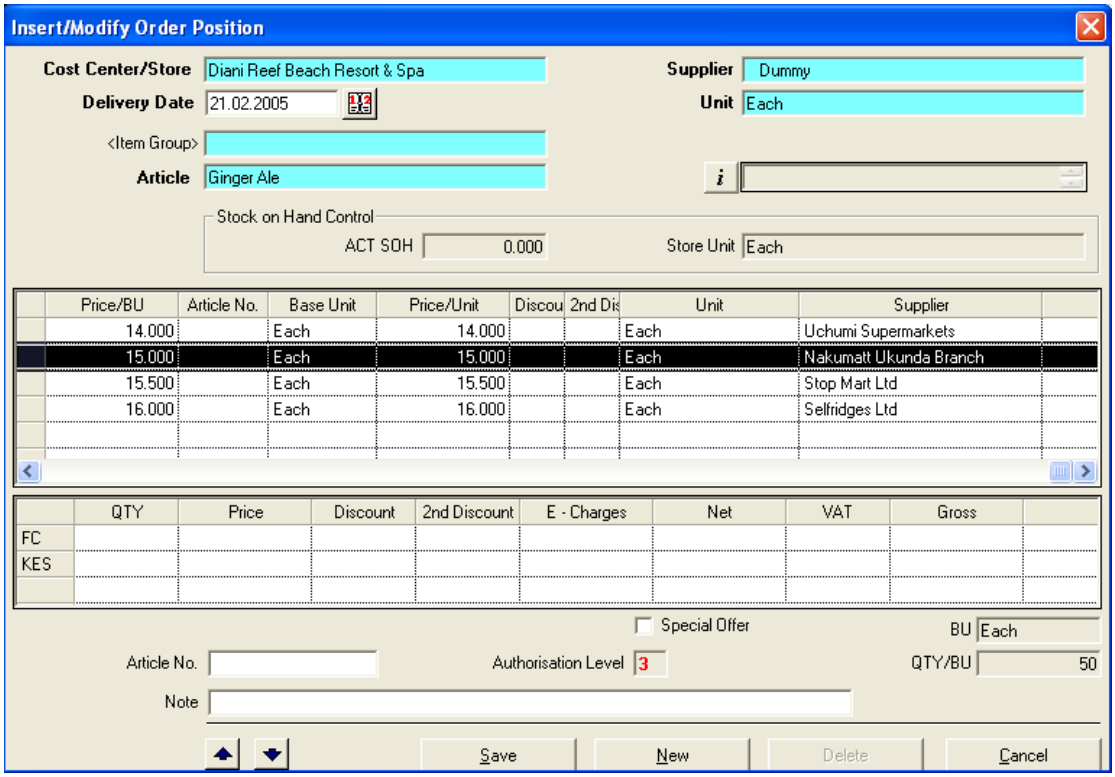

The following window appears:

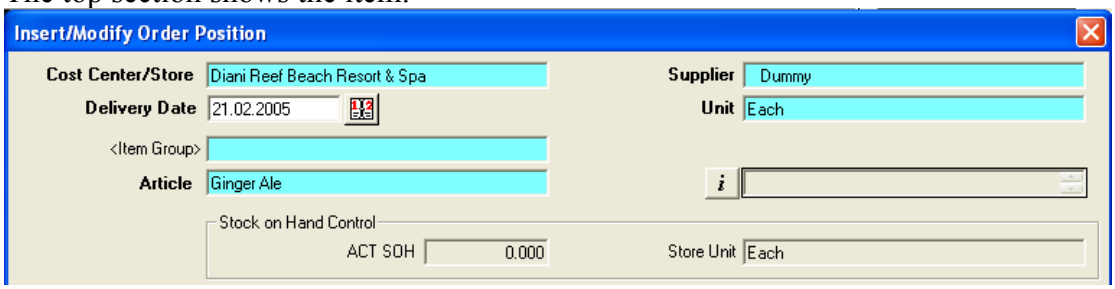

In the top section all the purchase requests are listed, Highlight one and click '**Show Items**'.

In the bottom section, the items listed in the purchase request are displayed in RED. Highlight the first item in the list and double click it.

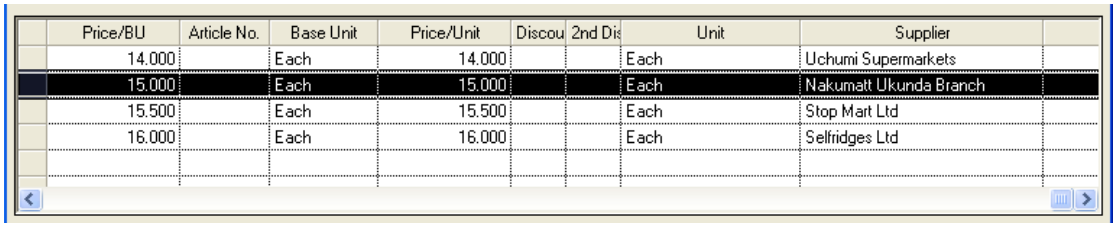

The following window appears:

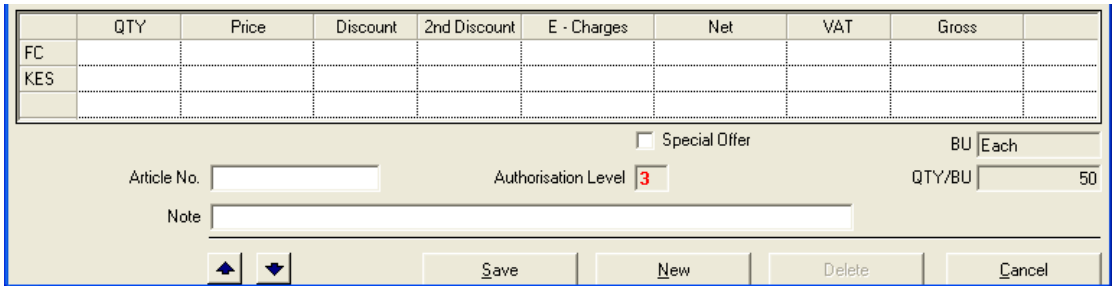

On this window,
The top section shows the item:

if there are price quotes for this item then the middle section will contain this information, simply highlight the appropriate supplier and double click.

If you want to make any changes to the quantity, price, discount etc then you can in the following section:

Once finished click on '**Save**' 

Move on to assign the next item to a supplier by clicking on the down arrow 

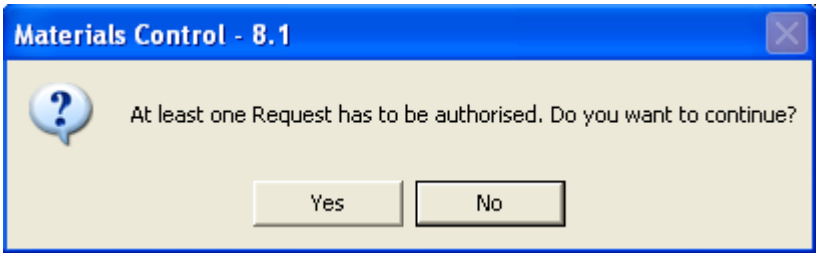

You can move through the items by clicking on the Up and Down arrows 

Follow the same procedure as above until all the items are assigned to a supplier.
Then click '**Cancel**' 

Then same window, as previous is displayed this time with items displayed in BLACK.

Click '**OK**'

The following message will appear:

Click on '**Yes**'

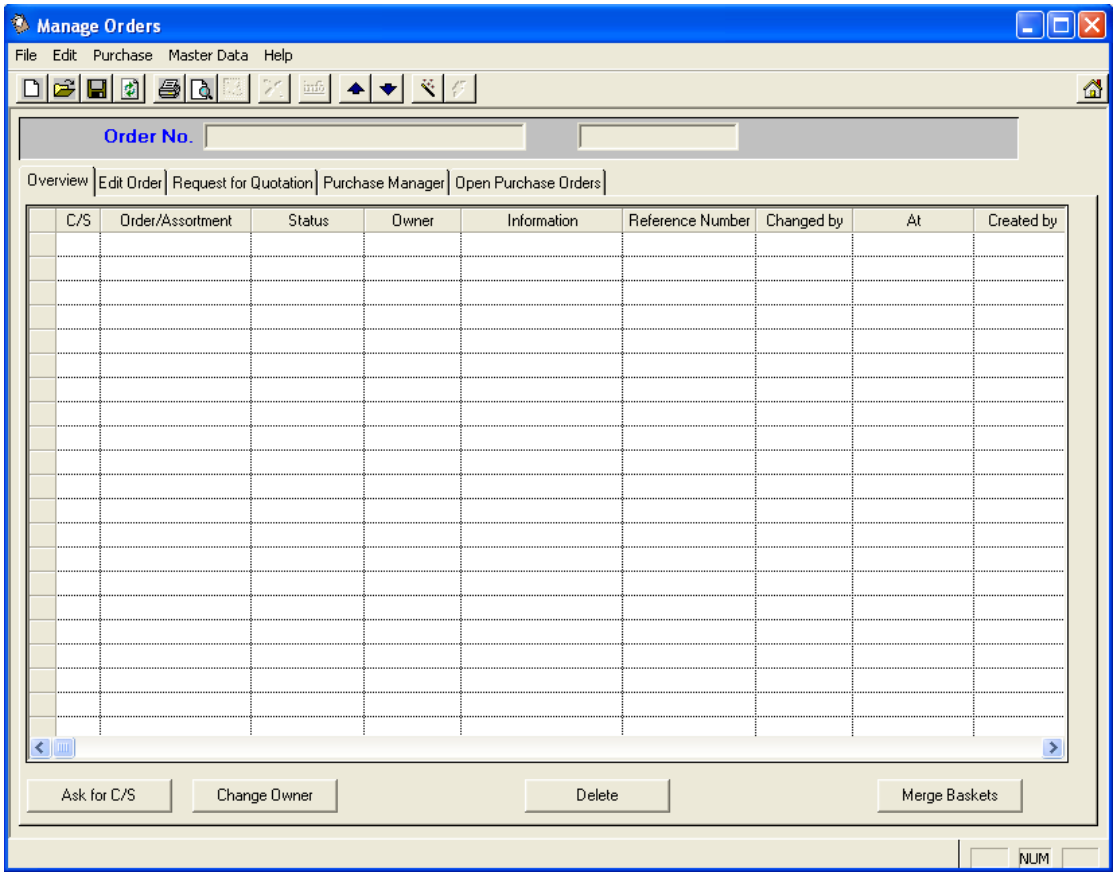

The items are now awaiting to be sent to the Purchase Manager for approval.

To send a purchase request for approval to a Purchase Manager.

This could be done by the same person who resolves requisitions or by a Purchase Manager.

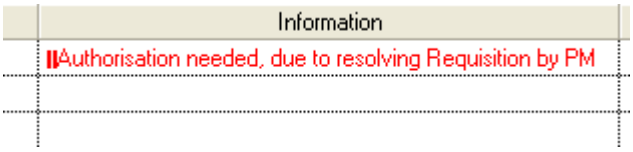

Click on the '**Purchase Orders**' icon under the Purchases short-cut bar 

The following window appears with some information.:

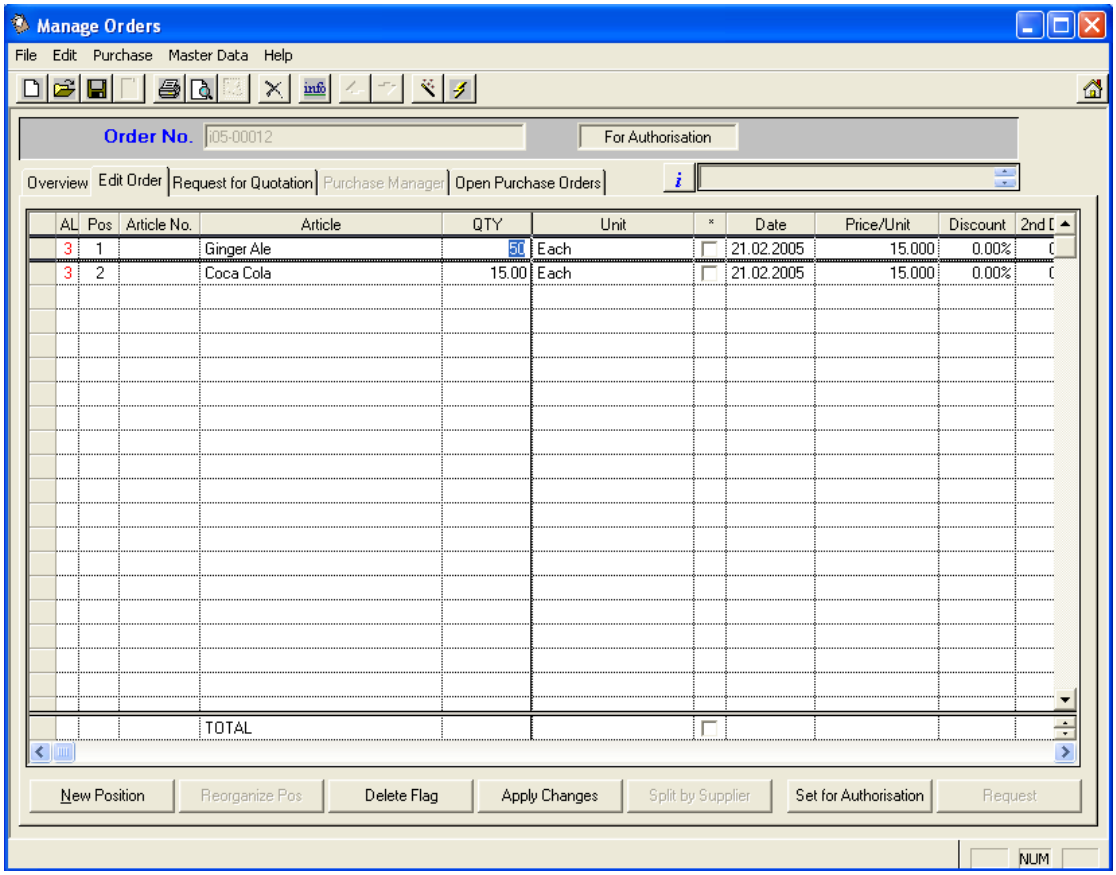

The resolved purchase requests can be seen displayed here, as before, but this time with the details under the information field

"Authorization needed due to resolving requisition by PM".

Highlight the requisition and double click it,

The screen changes to the following:

On this screen you can change/ amend quantities, prices, discounts etc and then send it for authorization by clicking on '**Set For Authorization**'.

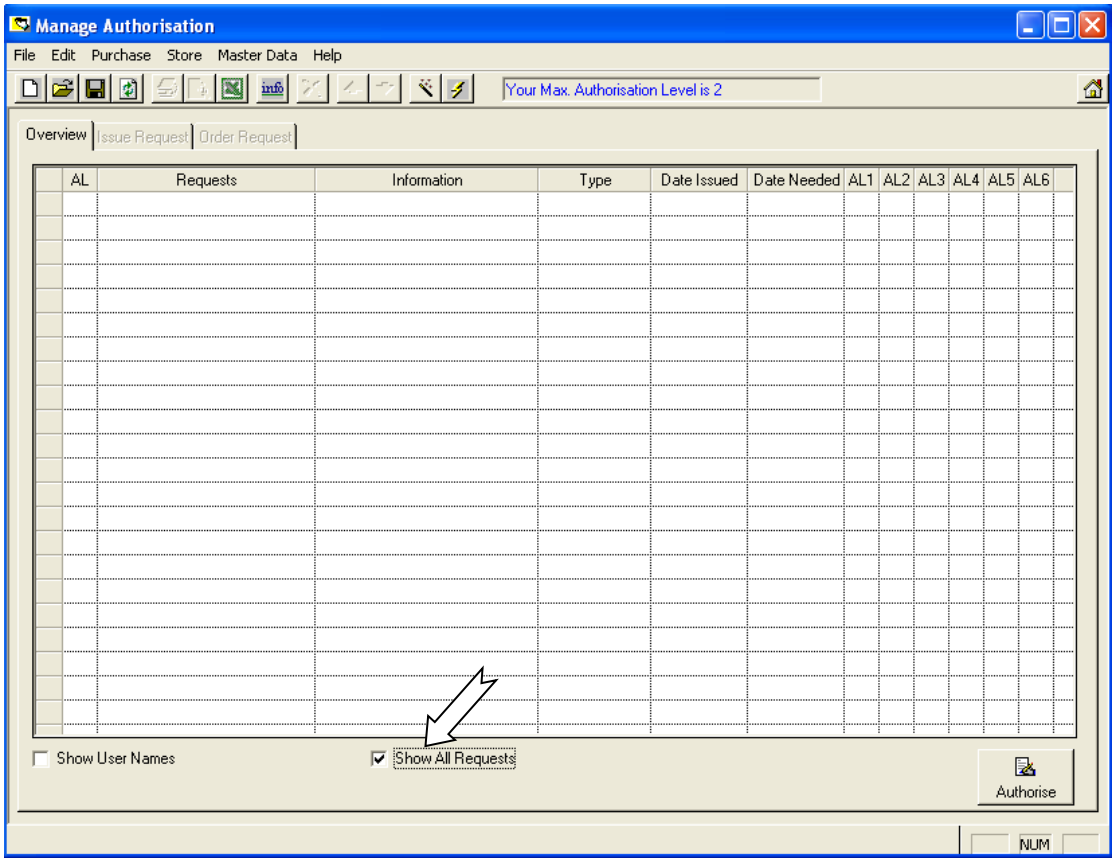

The purchase request has now gone for appropriate authorization(s).

Authorization.

This is done by the final authorizer of LPO's.

Click on the '**Authorization**' icon under the Stores short-cut bar 

The following window appears:

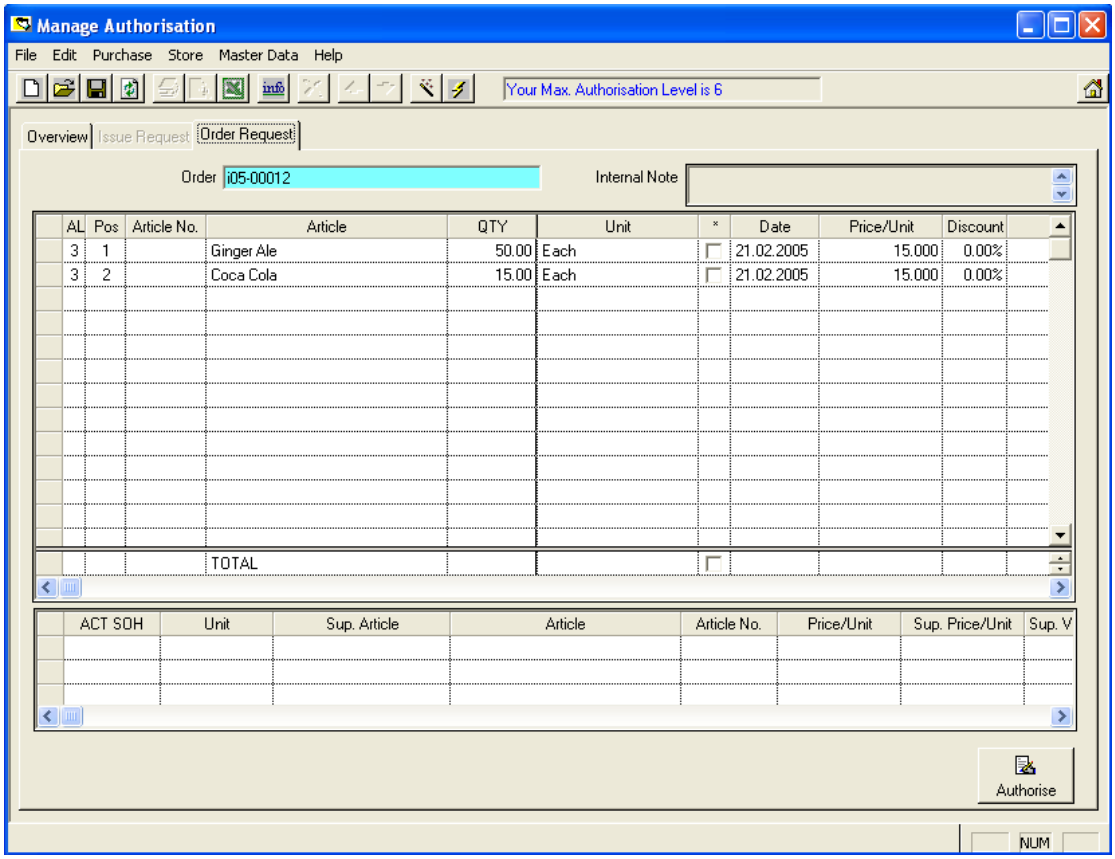

Tick the check box '**Show All Requests**' (shown by the white arrow)

All the requests are now displayed on screen.

Highlight one and double click it to see the contents of the Purchase Request.

The following screen appears:

Here you can change/ amend the quantities, prices & discounts, if need be.

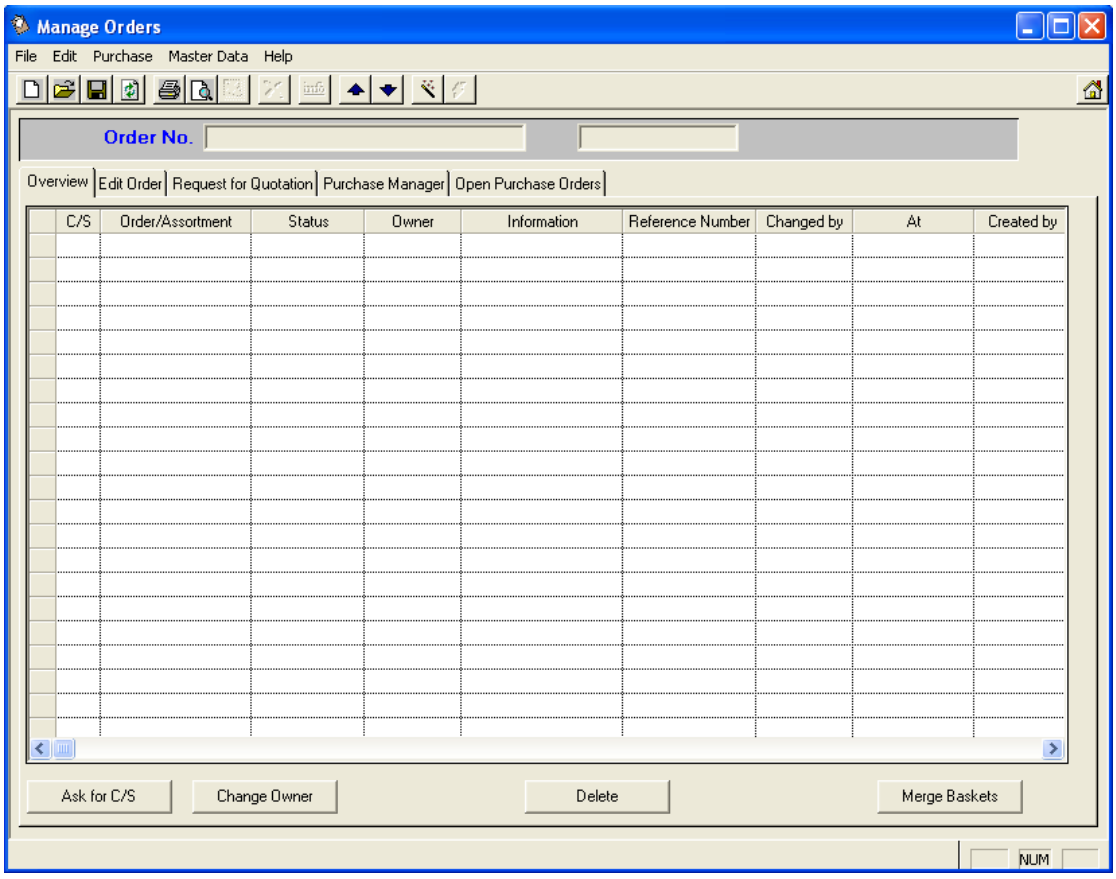

Click on '**Authorize**' 

Printing of the LPO after authorization..

This is to be done either by the purchasing officer or the purchasing manager.

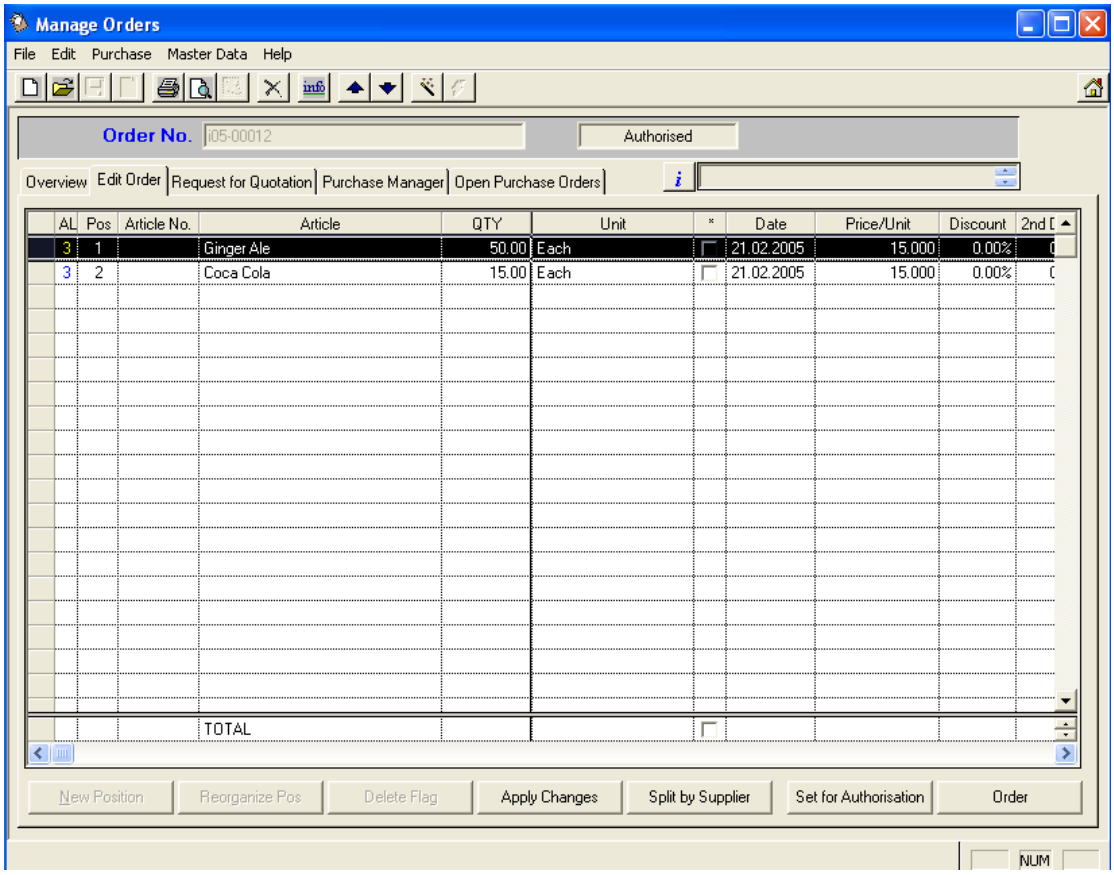

Click on the '**Purchase Orders**' icon under the Purchases short-cut bar 

Again, the following window will appear with the authorized purchase requisitions displayed in black

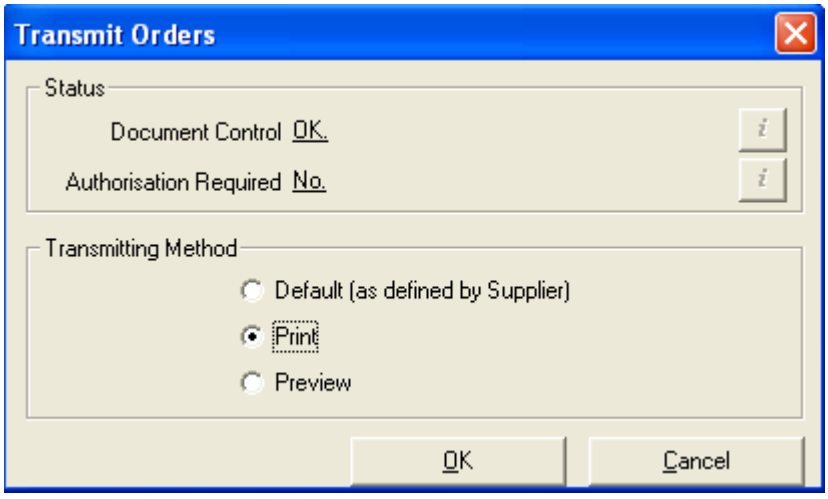

Highlight and double click it the authorized purchase request,

The screen changes to the following:

Click on '**Order**' 

The following window appears:

Select '**Print**' or '**Preview**' as you wish in the Transmitting Method section
Click '**OK**'

The Local Purchase Order can be sent to the respective signatories before being sent off to the supplier.
